

# DIAMOND CDR

CREATING A CLASS IN ITSELF

You name it and we have it.

Moser Baer, always driven by customer requirements, innovates again to launch Diamond CDR. A unique media which in past was only 'wishful thinking' for professional segment.

A unique formulation and process established for high end professionals to create an impression on the disc which **Impresses** but DOES NOT SHOW.

Needless to add, Moser Baer's Diamond CDR ensures best drive compatibility and comes with both Inkjet/Thermal Printable coating

- ▲ Diamond CDR - **The Recordable ROM**
- ▲ Unique patented formulation that gives "Diamond finish"
- ▲ Colorless burning
- ▲ "Complete" printing on the surface
