

Offset Printable Disc

TM
moserbaer

Moser Baer, the 2nd largest manufacturer of Optical media globally, innovates again to offer Offset Printable CDR & DVDR.

Consistent high quality

Offset printable discs are produced on dedicated lines using an advanced manufacturing process ensuring uniformity & consistency in the quality offered.

Customized manufacturing

MBI has developed a special manufacturing process that enhances surface adhesion, as compared to normal discs, to withstand the extremely high roller pressure of offset printing machines.

Tested for performance

These discs are tried and tested on prominent offset printing machines such as Hanky and Kammann and are already being supplied to customers globally

Enhanced image quality

Use Moser Baer's offset printable discs to print photographic quality prints with bright colors in an unlimited tonal range.

Universal drive compatibility

MBI media enjoys wide compatibility with leading drives such as LG, Pioneer, Sony, PLDS etc.

About Moser Baer India Ltd

Moser Baer, headquartered in New Delhi, is one of India's leading technology companies. Established in 1983, the company successfully developed cutting edge technologies to become the world's 2nd largest manufacturer of Optical Storage media like CDs and DVDs.

The company also emerged as the first to market the next-generation of storage formats like Blu-ray Discs and HD DVD.

Recently, the company has transformed itself from a single business into a multi-technology organisation, diversifying into exciting areas of Solar Energy, Home Entertainment and IT Peripherals & Consumer Electronics. Moser Baer has a presence in over 82 countries, serviced through six marketing offices in India, the US, Europe and Japan, and has strong tie-ups with all major global technology players.
